

OUR TESTIMONIAL

ALIX'S LEGACY

Alix's Legacy
Working together for a world where
brain tumours are defeated

Who are Alix's Legacy?

Alix's Legacy's mission is to eliminate Glioblastoma, an aggressive malignant brain tumour with no known cause and no known cure. We will do this by raising awareness that currently only 2% of cancer funding goes into brain tumour research.

Kind words found on LinkedIn:

<https://bit.ly/2PNZI54>

Just wanted to give a big shoutout to all the nice people at #SedcomNetworks down in Billericay. We lost our daughter in 2017 to brain cancer. Desperate to do something, I started AlixLegacy.com to raise money for research into this horrifying disease, which took her from her young children and husband in just 9 months.

I needed a website for my charity and a place to host it, and Sedcom stepped forward with empathy and generosity.

There are a ton of IT service providers out there, but these guys stand out because they have a heart. And they are also super-responsive: When the spam trolls decided to attack my site, Sedcom put in a shield immediately - it's so reassuring to know these guys have got my back.

I'm sure there are bigger operators out there, but if you want a Managed Services Provider who are knowledgeable, helpful, and have a big heart, than go and check out sedcom.net (and tell them Humphrey sent you!) #charity #generosity #IT_with_a_Heart
